| 2. HAZARD IDENTIFICATION  |   |               |                           |
| None under normal conditions of use, handling and storage for the lenses polishing.   |   |               |                           |
| <b>Phrase R</b>   | -   | <b>CLP- H</b> |                           |
| <b>Phrase S</b>   | -   | <b>CLP- P</b> |                           |
| 3. COMPOSITION, INFORMATION ON INGREDIENTS:   |   |               |                           |
| Self-adhesive flock on a plastic base used as polishing pad for plastic lenses.<br>Vinylacetate acrylate and ethylene.<br>Non-woven textile (Polyester and Cellulose).<br>Double bond acrylic/synthetic rubber.<br>Siliconised paper. |   |               |                           |
| 4. FIRST AID MEASURES :   |   |               |                           |
| <b>Inhalation</b>   | Not applicable.   |               |                           |
| <b>Eye contact</b>  | Not applicable.   |               |                           |
| <b>Skin contact</b>   | None hazardous effects known. Wash with soap and water.   |               |                           |
| <b>Ingestion</b>  | Not applicable.   |               |                           |
| <b>Environment</b>  | Not applicable.   |               |                           |
| 5. FIRE FIGHTING MEASURES   |   |               |                           |
| <b>Extinguishing media</b>  | All approved extinguishing media for environment fires are suitable.  |               |                           |
| <b>Inappropriate extinguishing media</b>  |   |               |                           |
| <b>Specific hazards</b>   | Flammable.  |               |                           |
| <b>Personal protection</b>  | In the event of fire, the product can generate CO <sub>2</sub> , CO, .... Use specific equipment.   |               |                           |
| 6. ACCIDENTAL RELEASE MEASURES :  |   |               |                           |
| <b>Individual and environmental protection</b>  | Not applicable.   |               |                           |
| <b>Cleaning up</b>  | Not applicable.   |               |                           |
| 7. HANDLING AND STORAGE:  |   |               |                           |
| <b>Handling</b>   | The best storage conditions are 20°C ±5°C, 50%HR ±15% HR, in a healthy location (without dust, grease, or water), products being in their original packaging, out of direct sunlight. |               |                           |
| <b>Storage</b>  |   |               |                           |

Product name: **MULTIPOL**

|  |   |                                  |                |
|--|---|----------------------------------|----------------|
| <b>8. EXPOSURE CONTROL / PERSONAL PROTECTION</b> |   |                                  |                |
| <b>Respiratory protection</b>                    | Not applicable.   |                                  |                |
| <b>Hands protection</b>                          | Not applicable.   |                                  |                |
| <b>Eye protection</b>                            | Not applicable.   |                                  |                |
| <b>Skin protection</b>                           | Not applicable.   |                                  |                |
| <b>General</b>                                   | Handle with elementary precautions of hygiene and neatness. Do not eat, drink, or smoke on the work area. Wash hands abundantly before eating, drinking or smoking. Avoid inhalation or ingestion of smoke. |                                  |                |
| <b>9. CHEMICAL AND PHYSICAL PROPERTIES :</b>     |   |                                  |                |
| <b>Apparence</b>                                 | Solid   | <b>Decomposition temperature</b> | Not available. |
| <b>Colour</b>                                    | White   | <b>Viscosity</b>                 | Not applicable |
| <b>Odour</b>                                     | None  | <b>Solubility</b>                | Not applicable |
| <b>pH</b>  | Not applicable  | <b>Pressure of vapor</b>         | Not applicable |
| <b>Boiling point:</b>                            | Not applicable  |                                  |                |
| <b>Melting temperature</b>                       | Not applicable  |                                  |                |
| <b>Flash point</b>                               | Not applicable  |                                  |                |
| <b>Density</b>                                   | Not available.  |                                  |                |
| <b>Inflammation temperature</b>                  | Not available   |                                  |                |
| <b>10. STABILITY AND REACTIVITY:</b>             |   |                                  |                |
| <b>Stability</b>                                 | Products are stable and non reactive under normal conditions of use and storage.  |                                  |                |
| <b>Conditions to avoid</b>                       | None.   |                                  |                |
| <b>Materials to avoid</b>                        | Strong bases, acids and oxidisers.  |                                  |                |
| <b>Decomposition products</b>                    | None hazardous under normal conditions.   |                                  |                |
| <b>11. TOXICOLOGICAL INFORMATION:</b>            |   |                                  |                |
| <b>Acute toxicity:</b> Not applicable.           |   |                                  |                |
| <b>Inhalation</b>                                |   |                                  | N              |
| <b>Ingestion</b>                                 | Not applicable.   |                                  | N              |
| <b>Skin contact</b>                              | Long skin contact can lead to irritation.   |                                  | L              |
| <b>Eye contact</b>                               | Not applicable. Long skin contact can lead to irritation.   |                                  | N              |
| <b>Chronic toxicity</b>                          | Not applicable.   |                                  | L              |
| <b>Irritation/ sensitization</b>                 | Long skin contact can lead to irritation.   |                                  | L              |
| <b>12. ECO-TOXICOLOGICAL INFORMATION:</b>        |   |                                  |                |
| <b>Degradability</b>                             | Not available.  |                                  |                |
| <b>Accumulation</b>                              | -   |                                  |                |
| <b>Different harmful effects :</b>               | -   |                                  |                |
| <b>Effects with short and long terms</b>         | -   |                                  |                |
