

PrTiO3

TDS N° 134.1

TECHNICAL DATA SHEET

2007

Description

Praseodymium and titanium oxyde of high purity mixed. Developed for antireflective coatings of organic lenses.

Benefits

- Strong cohesion with other AR coatings
- High purity
- Compatible with all evaporation chambers

Technical Data

Chemical formula

PrTiO3

Storage and Use

- Store products in their original packaging out of dust, grease, water, or organic compounds.

Packaging

- 100gr or 500gr.
