

SHL100

TDS N° 115.1

TECHNICAL DATA SHEET

2007

Description

Super-hydro liner for super hydrophobic treatment of 100 lens surfaces.

Benefits

- Lens is easy to clean
- Water repellent
- Oil (fingerprint) repellent
- Abrasion resistant

Technical Data

Recommended thickness	8 to 13 nm
Contact angle	>105°
Chemical composition	stainless steel 10x10mm liner with polyfluoroether
Evaporation source	E.B. gun with hole cover or Mo flat boat
Shelf lifetime	90 days

Storage and Use

- 5 to 40°C out of direct sunlight.
- Avoid contact with moisture, water and solvent.
- Use product within one week once bag has been opened.

Packaging

Bag of 10 liners.
